

New Traffic Safety Act Amendments (.05 - .08)

Today, it is expected that the Government will be introducing new Legislation which will allow police to seize your motor vehicle followed by a three day driving suspension in the event you are caught with a blood alcohol concentration from .05 to .08. It is expected that a second offense will result in a 15 day license suspension along with impoundment of your vehicle for 7 days and a requirement to take a drinking and driving course. A third offense will subject the driver to a 30 day license suspension, a 7 day vehicle seizure and a further Impaired Driving Course.

These *Traffic Safety Act* amendments will not result in a criminal record.

We will post the new amendments as soon as they are received.
